Additional Council Bluffs news on sev-
enth page.

The Bonnie Belle was yesterday
launched at Lake Manawa.

The popular resort is the Manhattan,
418 Broadway, Radio & Yonawine.

In the district court to-day the case of
Wilson vs the city will be continued.

F. Rickman has been arrested and
placed in the city jail charged with the
larceny of hogs in Harrison county. He
will probably be taken there to-day.

The sewer contracts will probably be
awarded to-night by the city council.
The figures of the five bidders have all
to be tabulated and examined by the
committee who are ready to report.

The contract for the building of the
hotel at Lake Manawa will probably be
let to-day. The plans have been ap-
proved and as soon as possible now the
work will be pushed to completion.

It is understood that the Omaha Row-
ing association has not yet acted upon
the offer made by the Council Bluffs
Rowing association in regard to using
the grounds at Lake Manawa upon
which to build a boat-house.

The entertainment announced to be
given by the young ladies' bible class of
the Congregational church was sadly in-
terfered with by the storm last Friday
evening. It will be given to-morrow
(Tuesday) evening at the home of Mrs.
Montgomery on Fourth street.

Remember the meeting of the Council
Bluffs club to be held at Mueller's new
house to-night at 8 o'clock. Every pro-
fessional and business man should be
there if possible, and the roll of mem-
bership should be increased to the full num-
ber. Some important business comes up
to-night, and all members and those
thinking of joining should be present.

It is more than probable that the resig-
nation of Mr. E. E. Hart as president of
the Council Bluffs Rowing association
will not be accepted by the club, as that
gentleman's only reason for withdrawing
is that he expects to be absent from the
city for eight or ten weeks during the
season. The club do not doubt will re-
fuse to accept it and the vice president
will probably be called upon to act.

Queer Railway Rates.

Since the Union Pacific has placed a
man at the ferry cars to sell tickets in-
stead of allowing passengers to pay their
fare after they had entered the cars,
there has been more or less dissatis-
faction among horsemen and others in re-
gard to the new way of interpreting
the following clauses which are printed
upon the tickets.

On the ticket appears: "Horses, mules
and cattle must be accompanied by a
man in charge who must hold proper
transportation. No free passengers with
stock in ferry cars." This ticket is filled
out by the ticket agent for any number
of men, horses or cattle, and 25 cents
each is charged for every man and every
animal.

Another ticket reads: "Good for one
trip on date of sale, Council Bluffs to
Omaha, of one horse and rider. One
horse vehicle, loaded or empty, and
driver or one extra horse attached to ve-
hicle under saddle or loose." These
tickets are sold for 25 cents each.

Where the difficulty occurs, if it may
be called such, is that a man leading a
horse by the bridle is charged 50 cents
for the two, while a man may lead a
horse by the bridle, provided a saddle is
upon the horse, and only be charged 5
cents for the two.

It is claimed that on the Omaha side of
the river it makes no difference whether
a horse is saddled or not, just so accom-
panied by one man, a charge of only 25c
is made.

A Big man asked the agent who stands
at the ferry cars if the above facts were
true, and he replied in the affirmative,
stating that construction was put upon it
by his superior, Mr. Roberts, the agent.
Mr. Roberts then explained that he did
not see how he could follow instructions
and do differently unless ordered so by
the company. He knew there was a
great deal of kicking but it could not be
helped.

While a Bee man was at the depot two
men with six horses went into the ferry
cars and were charged an even \$2.00.
They took up less room in the cars than
two buggies would have and they were
charged \$1.50 more than the buggies
would have been provided they each only
had one occupant.

Some of the firms here dealing in horses
and mules, and having much business on
the Omaha side, find the difference
greatly to their disadvantage, and they
will hail with delight the completion of
the new Broadway bridge.

The Hambletonian stallion Arbitrator
can be seen at my stable on Fourth or
Hatchett streets, three doors south of
Hatchett's carriage repository. He is a
grandson of Hysdyke's Hambletonian
on the sire side, and a grandson of Mem-
brino Chief on the dam side, the ac-
knowledgeed principal products of speed
and general purpose horses in America,
and Arbitrator is no exception to the
rule. He is a horse of great in-
dividual merit and speed, and for the
purpose of convincing the breeders of
high bred horses that he is all that is
claimed of him, I will speed him a ten or
twenty-mile dash on the road to 600
pounds weight with any stallion owned
in the county. Breeders of high bred
horses will make a note of this and carry
it in their hats, as the owner of these
horses puts all the money he has or can
borrow into straight horses, and not into
books, pamphlets and wind, talking
about their forty-second cousins' per-
formances.

Also Colonel Reve, bred by W. H. H.
Colby, of Ft. Dodge, Ia., sired by Star-
light by Star of the West, dam by Con-
pon, Jr., by Conpon, by Rysdyke's Ham-
bletonian. This colt is a stranger in a
strange land, but his breeding is cer-
tainly all any man could wish for. His
great and positive individuality, his true
and powerful stride, his wonderful con-
stitutional powers, and his powerful steel-
converted frame work, insure for him a
career that will place him among the
if not the grandest stallions in the west.

SUNDAY DOINGS IN THE BLUFFS

The New Presbyterian Pastor Gives An-
other of His Popular Sermons.

TEMPTING A BOY

Inconsistencies in Stock Rates on the
Ferry Train—Manawa's New
Hotel—Personal Mentions
—All About the City.

"Working Together For Good."

Rev. Dr. Phelps, the new pastor of the
Presbyterian church, is fully meeting the
expectations raised by the record
made by him elsewhere. He is not only
making friends rapidly, but in the pulpit
especially he is a power. His sermons
are attracting much attention, and ex-
citing many favorable comments. He is
not so remarkable for his close reason-
ing or eloquent climaxes, but rather for
the simplicity of his preaching, and the
vividness of his illustrations. He is
what most people term "an easy man to
listen to." One becomes interested with-
out effort, the arrangement of his ser-
mons is so simple that one follows the
train of thought with ease, and his word
pictures are vivid, his illustrations
well chosen. His pulpit manners are
natural, his voice, gestures, and all de-
tails of his delivery so harmonizing that
one does not have thoughts distracted by
any striking peculiarities, to which
one must become accustomed, before re-
ally enjoying hearing him. In the com-
mon way of putting it, he is not only "an
easy man to listen to," but "one does not
have to get used to him."

Yesterday morning he preached from
the text, "We know that all things work
together for good to them that love God." He
spoke of the swiftness with which
events followed each other in the lives of
individuals and of nations. The recent
removal of the remains of Abraham Lin-
coln brought back so vividly the startling
events which led to his death. The men
prominent in that day, who were they
now? Grant, Garfield, Beecher, Gough
and other had been also gathered into
their last resting places. Rapid as these
events followed, and important as they
had been, yet there was the assur-
ance that they all worked together
for good. Fleeting as was man's life,
yet it was full of trouble. The sunniest
life had shadows. The great trials of
life made man better. The great
driveweels of life backward, really
pushed a man forward, nearer to heaven.

In the course of the sermon Rev. Dr.
Phelps told an incident in his own life,
as an illustration of how an overruling
providence often changed man's plan-
ning, and made events work together for
good. After preaching ten years his health
was poor, and all physicians and friends
advised him to give up. He was weary
time and again that if he did not stop
preaching he would drop dead in the
pulpit. At last he decided that it was
best to stop. He decided to go to work
in the carpenter trade. He made ar-
rangements to do so, and the very day
was set. Instead of meeting his appoint-
ment to go to work, he accepted an invita-
tion to meet an old friend, a brother
minister, who had formerly been a doc-
tor. This friend convinced him that the
other physicians had been in error about
his case. He showed him that he was
suffering from spinal trouble, and not
from brain trouble, and advised him
where he could go to get relief. This
incident changed his plans entirely. He
was helped physically, and went on
preaching, gaining in health and
strength. He believed that God had
overruled his plans, and that he had
made all these things work together for
good.

Fine Horse Fleash.

There arrived in this city yesterday
morning some noted trotting horses,
some of which have been wintering in
California. They were in charge of one
of the most noted horsemen in the coun-
try, Mr. O. H. Hickok, late owner and
driver of the famous St. Julien. Upon
arrival they took quarters at the Council
Bluffs driving park, where they will
remain until 2 o'clock this afternoon,
when they leave for the east.

Among the number are the celebrated
Harry Wilkes, who last season reduced
his record a second and a quarter. He
now has a record of 2:13. J. Q., with a
record of 2:17. Albert, 2:24. Porter, 2:25,
and Conde, a green horse. He has
charge also the stallion Abesford, with
three others, which are en route east.

Besides these there is another stable of
twelve brown trunks, and advised him
2:31, the property of Mr. Sibley, who is
en route to Frankfort, Pa., having been
purchased of Governor Stanford.

War Is Declared at Last.

The Germans entered Paris at 7:30
o'clock this morning, but were beaten
back by the workingmen, the merchants,
farmers and bankers, after which a par-
ley was held and the opposing forces con-
cluded to postpone the balance of their
fighting until Tuesday, May 17, when
they will rush down to the assignee's sale,
where there is \$50,000 worth of men's,
boys' and children's clothing to be
slighted at 50c on the dollar.

We mean just what we say, and these
goods must be sold. Come early to avoid
the rush. We will put on sale Tuesday
morning 100 suits at \$2.00, original cost,
\$5. 100 suits of Union Cassimere \$3.50,
cheap at \$7. 50 black worsted and fancy
cassimere suits at \$5, such as are sold
from \$10 to \$13. The very finest worsted
and cassimere suits of foreign manufac-
ture will be sold at from \$6 to \$12 per
suit. Youth's boys' and children's
clothing and furnishing goods at the
same low figures. There is no humbug
to this and we mean every word we say.

Country merchants will do well to give
us a call and examine our stock as we
will sell you goods for less money than
any eastern jobbing house.

ELECTRICITY!

DR. RICHARDS' Electric Bath Rooms and Office
No. 607 Mynster St., Council Bluffs.
One Square North of the P. O. Building.

**Treatment and Baths Given Ladies by Mrs. Dr
Richards on Tuesday, Thursday & Saturday.**

Electricity is a remarkable natural agent which has long been known and utilized
as a remedy for disease and continued experience has enlarged its sphere of use-
fulness and improved its appliances by which it is employed until its utility as a
virtue has become second to no other known remedy, in the treatment of certain forms
of disease. This agent is employed here in all its most serviceable forms by the aid of
large batteries, static machines, electric cabinet baths, electric water baths, the elec-
tric chair and electrodes for treating all parts of the body. We are prepared to do
all that can be done with these great remedies. In cases of Rheumatism, Neuralgia,
Paralysis, Spinal Irritation, Rectal Diseases, Nervous Diseases, in females arising
from Uterine disorders and many other chronic and subacute troubles, it stands at
the head of all known remedies or methods cure. A thorough study of it for years
and the successful treatment of hundreds of cases, after all other remedies had fail-
ed, is sufficient evidence of its great worth and perfectly satisfies us with its good
effects on the diseased body. In the great hospitals and sanitariums of America
and Europe, electricity is leading all other methods of treatment. In all leading
colleges the professors are teaching electricity as one of the potent remedies and
a special chair is appointed in many of them. Many of the ablest physicians of all
schools are making a specialty of electricity to the exclusion of almost everything
else. This great remedy has often fallen into disrepute by being recommended and
used by persons, and physicians, perfectly ignorant of its properties and powers,
who would as often advise and use the wrong current as the right one or depend
upon it in diseases for which it is not adopted. We are sure that when the people
become educated in the use of electricity for many diseases, with which the body
is afflicted and find the great good therein, the medicines and patent righted nos-
trums upon which they now rely will grow old and dusty on the shelves. Electricity
is nature's great remedy and to fully understand and skillfully apply it is our effort
and aim in life.

scriptive and illustrated pamphlet on Electricity and
